

MOUNTAIN VEGETABLES

Stanley Yelnats

ABOUT US

We are happy to announce that we are again back in business!

After “Mountain Desserts” and “Mountain Vaults” we are launching “Mountain Vegetables”!

FACTS

MARKET GAP

Vegetables with high oxygen due to the high altitude in the mountains

COSTS

More but you also get more oxygen – win:win

FINANCIALS

We understand that you want healthy food. So ask yourself – Is “\$50” for a salad really that much?

CUSTOMERS

We already have a few customers. Hopefully tomorrow my grandma also tries it.

USABILITY

It’s kind of a big market area so you should invest now!

SUMMARY

Thank you for reading our brochure. You should really invest in this glorious idea. Think about this: We are already serial entrepreneurs now and know how to run a business.

You can also invest via Bitcoin to my private wallet.
